

WILCOX AND LENROOT CARRY OUT AGAMIE COUNTY

ANTI-LAFOLLETTE MEN ENDORSED BY COUNTY

Lenroot Has Lead of 700 Votes
Over Thompson and Wilcox Leads by 250.

CITY VOTE OVERCOMES LEAD
Blaine and Thompson Have
Slight Majorities in Vote
Outside of Appleton.

Outagamie county apparently re-buked Senator Robert La Follette in the primary election Tuesday when it gave substantial majorities to his staunchest opponents—United States Senator Irvine L. Lenroot and Roy P. Wilcox, candidates for senator and governor respectively. With only the Dale precinct missing, Lenroot was leading James Thompson, La Follette candidate, by 773 votes. It is probable that Dale will give Thompson a slight majority but not nearly enough to offset his opponent's lead. The vote was 2,384 to 2,221.

Wilcox's lead was much less than Lenroot's but it is probable that any majority which the missing Dale precinct may give the La Follette man. He has a majority of 225 on the face of returns now available. He was given a vote of 2,404 while Blaine received 2,149.

It was Appleton's vote which placed Wilcox and Lenroot in the lead. Both men were behind in the county precincts, although the race was exceedingly close. The county outside of Appleton gave Blaine 1,231 votes while Wilcox received 1,050. Lenroot received the endorsement of 1,257 voters while Thompson was backed up by 1,365 voters outside of Appleton. Mayor McHenry of Oshkosh, who was a candidate on a straight vote platform, received 626 votes in the city and 719 in the county, a total of 1,345, a better showing than was expected.

J. N. Titterton, Omro, who was the American Society of Equity candidate for governor, ran a poor third, receiving 596 votes in the county precincts and only 106 in the city, a total of 702. Col. Gilbert Seaman, Milwaukee, Governor Phillip's choice for his successor, was literally snowed under, emerging from the battle with only 585 votes, of which 437 were cast in Appleton.

Dihmar and Hull, who a few years ago backed in La Follette's smile, ran poor races in Outagamie county. Dihmar received only 496 votes and Hull got even less, finishing with 250. These men were refused the La Follette endorsement but remained in the race. It is probable that their presence in the battle helped materially to cut the Blaine total and made it possible for Wilcox to romp off with a majority.

The splendid showing made by William Morgan, Milwaukee, anti-La Follette candidate for attorney general, was the surprise of election day. In dozens of precincts where La Follette candidates received substantial majorities Morgan ran ahead of his opponent, Kanehewer—and he pulled up a substantial lead. He was given 3,219 votes while his opponent received 2,494. Morgan ran ahead of his opponent by about 500 votes in the city.

Elmer S. Hall, Green Bay, La Follette candidate for secretary of state, ran far ahead of his ticket, polling 3,379 votes, nearly half of which were cast in the city. Hall received 1,074 and Harrington finished with 1,342.

George F. Comings carried the county in the race for republican nomination for lieutenant governor, distancing his opponents, Charles H. Everett and Albert J. Pullen. Everett ran 600 votes behind Comings and Pullen finished 900 in the rear of Everett.

As was expected, Henry Johnson was the county's choice for state treasurer. The Oconto Falls man has held the office for many years and apparently retains a firm grasp on it. He received 2,574 votes, while 1,341 were cast for Solomon Levanian and 1,279 for John Turner.

Congressman David G. Classon was not opposed for the nomination and polled 4,733 votes, about 500 votes behind the party leader.

RELIEF WORK IS RUSHED
Leaning Tower of Pisa Reported
in Danger of
Falling.

By United Press Leased Wire
Rome—The earthquake which shook northern Italy yesterday apparently was one of the most extensive that ever struck that region.

Reports received here today indicated an area of more than 200 miles long and 150 miles wide was affected. Scores of deaths and hundreds of injuries already have been reported and it was feared the casualty list would continue to mount as communication was re-established.

Property damage was expected to reach millions of dollars.

King Victor Emmanuel, who was visiting in Pisa, was reported to have left that city to visit the devastated districts.

Relief work was being conducted under government supervision. Soldiers and volunteer workers were being rushed into the stricken area.

By United Press Leased Wire
Rome—The casualty list resulting from yesterday's earthquake in northern Italy was growing today as additional reports were received.

Relief parties sent word that the town of Quercia, Molassa and Tarasco had been completely wiped out. The whole region around Spiza was said to have been seriously damaged.

Signor Bertini, under-secretary of public works, has left for the devastated area to personally supervise relief work.

Scores of persons were killed and hundreds injured in an earthquake which shook northern Italy early yesterday, according to scattered reports today. The property damage was said to be enormous.

Owing to interruption of communication, details were lacking.

Towns Are Destroyed
It was learned that Villa Colli-mandia and Fivizzano were completely destroyed. The former, located in the province of Massa-Carrara, had two thousand population. In Fivizzano 20 were known dead and scores injured.

Fifty-seven bodies were said to have been recovered from ruins in Pisa, where the famous leaning tower was reported to have been so severely shaken it was in danger of falling.

Troops and volunteer workers have been sent out to the stricken area with medical and food supplies.

The shock which centered in the province of Massa-Carrara, lasted about three seconds and was the most severe ever felt in towns of that zone.

Serious damage and many casualties were reported from Pietra, Fosio, Vogli, Camoriano, San Domino, Peazza, Alserchio, Poggio, Castagnola, Pesciadara, Canigiano, Gallinara and Salsola Marina.

Buildings Are Razed
At Calciniana a church and several houses were razed and persons were killed and many injured.

The church of St. Paul at Vico Regio was badly damaged and a workman was killed and several injured. The earthquake caused a panic among the population of Lucca.

Additional casualties were reported from Cavinaia, Picchio, Olivaia, Pelli, Morte, Vignola, Monte Castello, Fornio and Villa Farnet.

The famous Colli di Fivizzano was destroyed at Castel Franco. The entire population of Forte Marni, near Florence, was said to have deserted the town camping in the open country nearby.

According to the Nuovo Giornale of Florence districts of Lunigiana and Garfagnana were the hardest hit. The Spezia correspondent of Epta said the town of Fivizzano in the Apennines, 20 miles northeast, had been razed and Salsola and Motti had been partially destroyed.

Many were killed in the three towns.

EXCITING RACE

State Senatorship.

BALLARD CARRIES COUNTY

Slight Lead Here, However,
May Be Overcome in Shawano County.

Elimination of Clinton B. Ballard, stormy petrel of Grand Chute, from state politics, is foreshadowed in the complete returns from Tuesday's primary in the Fourteenth Senatorial district. There is only a bare possibility that Shawano county will maintain the lead of approximately 150 votes he piled up over Anton Kuckuk, his nearest opponent, in Outagamie county.

Returns from 26 of the county's 37 precincts—with Dale missing—give the Grand Chute man 2,265 votes and Kuckuk 2,192, a difference of only 74 votes. Dale is expected to give Ballard a majority, however, and is still to make known the result of Tuesday's ballot.

Kuckuk ran far ahead of Ballard in the city and registered a vote more than twice as large as that given Rohm. He lost heavily in the country districts, however. Ballard piling up a lead which the city vote could not overcome.

Outside of the city Ballard received 1,020 votes compared with 514 for Kuckuk and 1,794 for Rohm. The city, however, rolled up a big majority for the Shawano man and threatened to wipe out the early lead but could not quite make the grade. Kuckuk and Ballard each carried three wards, but Kuckuk's majority was by far the more substantial. The city vote was as follows: Ballard, 1,634; Kuckuk, 1,345; Rohm, 682. The first seven wards were reported to Kuckuk while Ballard took the fourth, fifth and sixth. Rohm ran third best in all but the third ward where he finished second and Ballard third.

On the face of incomplete returns, McFadden, Kaukauna, candidate for sheriff, is leading the ticket with 551 votes, seven ahead of Hugo Keller, candidate for district attorney. All the other candidates have in the neighborhood of 500 votes with several large precincts still to be heard from.

Much more was cast in the city. The third ward especially rolling up a large count. The vote was very equally divided among the candidates, although there was some evidence of "scratching."

John R. Phelan, who has been spending the summer months at the home of his grandfather, John Hardy, has left for Milwaukee, where he will attend Marquette academy.

SQUARE DEAL IS PROMISED SOIL TILLERS

Harding Outlines His Attitude
in Speech at Minnesota
State Fair.

OPPOSES PATERNALISM
Nominee Declares Farmers
Should Be Able to Stand
on Their Own Feet.

(By Raymond Clapper)
By United Press Leased Wire
St. Paul, Minn.—America must stand on her own feet, agriculturally, industrially and politically, Warren G. Harding declared in a speech at the Minnesota state fair here today.

"We are then the guarantors of our own security," he added.

Agriculture is menaced by evils which demand, not quick remedies, but careful study and proper action, the republican nominee continued.

"Unless we deal more fairly," he warned, "there may come a conflict between the organized farmers in the surplus producing states and those who insist on buying their crops below production costs."

"We need fewer land hogs who menace our future and more producers of ham and bacon," he said.

"We need less beguilement in cultivation, a quadrantal crop of votes and more consideration for farming as our basic industry. We need rest and recuperation for a soil worked out in agitation and more and better harvests in the inviting fields of mutual understanding."

Names Seven Planks
Harding put seven planks in his agricultural platform today.

Farm representation in government; right of farmers to cooperative organization; scientific study and action toward stabilizing prices of farm products; cessation of attempts at price fixing on foodstuffs; expansion of the federal farm loan act to aid farmers to purchase land; most efficient transportation possible; revision of the tariff to protect the American farmer.

Harding's speech today, the first outside of Ohio since he became the republican presidential candidate, although induced to come to Minnesota partly because of the political situation here, Harding made no reference to it or to the farmers' non-partisan league here. His speech was without direct reference to partisan politics although he scored the treatment accorded the farmer in the last seven years.

The government should do everything possible toward restoring a balance between livestock and grain production to encourage a return to the American farmer, Harding asserted.

America must decide whether the United States shall be a self-sustaining nation or continue to exploit agricultural resources and leave to posterity the task of finding food enough "by strong arm methods, if necessary," to feed the coming hundreds of millions, he declared.

"I have no thought of suggesting that the government should work out an elaborate system of agriculture and then try to impose it on the farmers of the country," Harding continued.

"There would be utterly repugnant to American ideals. Government paternalism whether applied to agriculture or any other of our great national industries would stifle ambition, impair efficiency, lessen production and make us a nation of dependent incompetents. The farmer requires no special favors at the hands of the government. All he needs is a fair chance and such just consideration for agriculture as is ought to give to a basic industry and ever seek to promote for our common good."

Reviewing efforts of farmers to organize for their own protection, Harding sounded a warning for fair treatment less producers and consumers fall into a conflict.

"We have witnessed the restricted production of manufacturers and labor, but we have not yet experienced the intentionally restricted production of foodstuffs," he added.

"Let us home we never may," Harding again declared, taking occasion for the second time of a campaign rumor circulating to rural regions.

Quoting census figures to show a drift of people to the cities, Harding warned the time may come when American farms cannot supply enough food for this country. He paid tribute to the patriotic work of farmers in raising war crops, but acknowledged the losses they have suffered therefrom and pleaded for return to normal and resumption of the "onward road" again.

"We must determine to build here a self-sustaining nation then we must at once set about development of a system of agriculture which will enable us to feed our people abundantly with some to spare for export in years of plenty and at prices which will insure the farmer and his family both financial rewards and educational success."

LENROOT NOMINATION TO SENATE IS ASSURED

SETS PACE IN RACE
Senator Is Leading Thompson
by More Than 11,000 Votes
on Late Returns.

WILCOX IS IN THE LEAD
Blaine Headquarters Claim Up-
state Precincts Will
Change Standings.

By United Press Leased Wire
Milwaukee—Returns late this afternoon from 1,054 precincts out of 2,379 in forty-five counties in Wisconsin, gave Irvine Lenroot 55,416 votes, James Thompson 44,884, and A. C. McHenry, 23,732 for the republican nomination for United States senator.

Lenroot, present junior senator, showed considerable strength in a number of counties in which he was not expected to make a big showing. In Winnebago county, the home of McHenry, mayor of Oshkosh, and "wet" candidate, Lenroot polled 4,331 votes against 4,012 for McHenry.

State Senator Wilcox had a lead of 3,533 over Attorney General Blaine in the race for governor on returns from 906 precincts including the city of Milwaukee.

As returns were compiled the margin swung up and down and it was indicated almost complete returns would have to be received to definitely decide the winner.

Milwaukee—United States Senator Irvine Lenroot was leading James Thompson of La Crosse, La Follette candidate for the republican nomination for United States senator, by 11,440 votes in returns from 681 precincts out of 2,379, compiled here at noon today. Returns from 677 precincts gave State Senator Roy P. Wilcox of Eau Claire, 40,992 votes as against 33,725 for Attorney General John J. Blaine, La Follette candidate for governor.

Incoming returns were boosting the lead of Lenroot over Thompson, and the Milwaukee Sentinel, republican, claimed he would carry the state by about 25,000. In 460 precincts outside Milwaukee county, the vote stood: Lenroot 29,670; Thomas 24,652; McHenry 10,131.

Returns from 231 Milwaukee county precincts gave: Lenroot 20,824; Thompson 14,302.

The governorship race is very close and John J. Blaine, headquarters claim the out-state vote will carry him over the Wilcox lead in Milwaukee county.

In 445 precincts in 39 upstate counties the vote for Governor was: "Blaine 24,455; Seaman 13,793; Wilcox 23,428.

Returns from 231 Milwaukee county precincts gave: Lenroot 20,824; Thompson 14,302; McHenry 10,131.

First district, including city of Racine—Randall 8,174; Beck 3,788; Adams 2,522 and Cooper 1,073.

Third district—Nelson 9,310; Moon 6,649 and Suttleworth 1,747.

Fifth district, complete, unofficial—Bading 6,506; Leuch 4,674; Stafford 13,955.

Sixth district, including city of Oshkosh—Lambert 4,245, and Dennhardt 1,645.

Seventh district—Each 1,398; Beck 2,989.

Eighth district—Brown 802; Eberlin 1,586; Shoemaker 753.

Tenney 1,718; Thomas 1,243.

There were few contests for congressional nominations on the democratic, socialist and prohibition tickets.

Unofficial returns point to the selection of Former Congressman W. H. Stafford as the republican candidate for congressman from the fifth district, against Victor L. Berger, an socialist leader. Reports from La Crosse were that Congressman John J. Each, co-author of the Esch-Cummins railroad law, was running behind J. D. Beck.

Returns from the congressional fights were few and many changes will be made in the standing in late returns. In the fifth district with but seven precincts to be heard from, Stafford had piled up more votes than the combined strength of his two opponents. He will fight for the office against Victor L. Berger, alone, as the democrats have no candidate in this district.

Scattered returns from the seventh district showed that Congressman Esch fell behind in his home city, La Crosse, putting him in danger of defeat. But the reports from the outlying counties of the district may yet put him in the lead.

Democratic and socialist candidates for United States senator and state offices had to compete. There is no democratic candidate in the field for lieutenant governor but the socialists have a complete state ticket. There are several contests for offices on the prohibition ticket but these returns had not been compiled early today.

PRIMARY FOLLOWS HOT
BATTLE IN GEORGIA

Atlanta, Ga.—Georgia democrats today were nominating a United States senator, governor, eight congressmen and state and county officials, following one of the hardest fought political campaigns in the state's history. Nomination in Georgia is equivalent to election.

Four candidates emerged in the senatorial race. Senator Hoke Smith, incumbent Governor Hugh V. Torrey, William E. Watson and John R. Cooper.

OHIO IS CENTER OF MONEY PROBE

Investigators Hear Testimony of One of County Officials.

By United Press Leased Wire

Chicago—Organization of the republican money raising system in Ohio described to the senate's "hush" committee today by Dudley R. Blossom, ex-county official.

One of the two sons of a Cuyahoga county, where a situation of the county's four hundred thousand dollars was said in his Pittsburgh office as Cleveland's quota.

Reedman was sent to Cleveland to head a republican headquarters in a campaign and direct the money raising.

Senator Spencer said the essential features of form 101 were not used in Cleveland.

Form 101 said subscriptions of \$5,000 and more should be obtained," he said.

Did you get any such? "None over \$1,000," Blossom said.

Blossom said there were twenty-three or twenty-four subscriptions of \$1,000. He denied in reply to Spencer that any effort was made to keep the plan secret. After Blossom had highly praised the plan, Senator Pomeroy asked:

"Was there any reason why the republican national committee should not have adopted the plan or should have tried to keep it secret?"

"No reason I know of."

Look Into Plans

The money raising plan outlined by Blossom was that provided for in form 101, the "Blair" plan.

Blossom said he did not know how the 3,000 names were obtained nor by whom.

A certain number of the 3,000 prospects were assessed definite sums, which Blossom said, it was thought they should be able to pay.

Daily luncheon meetings were held in form 101 and the money raising project was inaugurated at a big dinner.

Senator Reed read to Blossom the Blair plan as outlined in form 101 and asked if it had not been closely followed. Reed, in reading the form, brought out that it called for an executive committee of 12 men and Blossom said the Cleveland committee had numbered 12.

Explains Form 101

Form 101 fixed \$3,000 as the size of the prospect list for a city like Cleveland. This was the number of names in the Cleveland list, Blossom said.

Estimating of the amounts that a prospect should pay was done just as suggested by the form, the witness testified.

Fred W. Upham, republican treasurer, and Will H. Hays, chairman, have repeatedly denied that form 101 or the plan it embodied was put in use.

Blossom said a "cream list" of 25,

RAILROADS SPEED UP ON SHIPPING

Experts Note Greater Efficiency in Freight Handling.

By United Press Leased Wire

Chicago—Possibility of a shortage in coal, grain and essential commodities this winter has been eliminated by a speeding up in railroad efficiency in handling and loading of freight cars, railroad officials here said today.

As a result of a campaign to increase mileage and loading of freight cars, officials said more freight was being handled through Chicago today than ever before. With Chicago the railroad center of the country this may be taken as an indication, officials said, that the campaign has been successful and fears of coal and food shortages this winter are removed.

According to John Hayden, a member of the commission on service of the American Railroad association, representing all roads connecting with Chicago, from 12,000 to 14,000 freight cars pass through Chicago daily.

This, Hayden said, was an increase of 25 per cent over a year ago and a record in railroading.

"It means that there will be a great number of cars available to handle shipments of coal and fuel this winter and prevent any famines," he said.

The number available is not known. There is still a shortage, Hayden said, but not alarming.

The campaign of the railroads aimed at increasing loading of freight cars and speeding up mileage will make available more than 80,000 more freight cars. It provided for an average daily minimum movement of freight cars of 50 miles an increase in the average loading of cars to 30 tons per car.

The speeding up in movement of cars has been felt by distributors.

According to Sol Chesterfield, former vice-president of the National Retail Grocers' association and head of the Retail Food Distributors' committee here, it would mean a stabilization of food prices.

OVER 1,000 WOMEN VOTE IN PRIMARY

Election Returns Are Late Because of Large Number of New Voters.

Newly enfranchised women helped swell the number of ballots in Tuesday's primary election to approximately 7,000, approaching a record for a primary in Outagamie county. In many precincts the voting was the heaviest in history while in others the normal strength was manifested. The vote was well above the average for primaries.

While definite figures are not obtainable, it is probable that between 1,000 and 1,500 women voted on Tuesday. Nearly every precinct in the county reported a number of women voters and in a few precincts—notably the first ward of Appleton—the number of women voters was nearly as large as men. Nearly 900 votes were cast in that precinct.

County districts reported but few of the new voters taking advantage of this first opportunity to cast a ballot. The number of women at the polls was materially reduced because of the impression that women could not vote unless they were registered.

While there was considerable interest in the county contests, the majority of election fans were eager for information regarding the state battle. Telephone lines into the Post-Crescent office were kept hot until the wee small hours of the morning by information seekers. Definite returns were not available, however, until an exceedingly late hour. Shiocton, the first precinct to report, telephoned its figures about eight o'clock. Third ward of Appleton finished its count shortly before eight o'clock Tuesday morning. The fifth ward election force was the first in the city to complete its work.

Many of the country precincts were not able to report until after four o'clock in the morning because of the large vote. The returns are exceedingly hard to obtain and it may be several days before definite figures on the state result are available.

RIOTING STARTS IN STRIKE ZONE

Attempt of Strikers to Work on Section Gang Starts Trouble.

By United Press Leased Wire

Wilkes Barre, Pa.—Rioting broke out today in the anthracite coal strike district. For half an hour a large number of men battled at Pittston before the strikers, with drawn clubs were able to disperse them. Many of the strikers received bruises and cuts but none was seriously injured.

The trouble started at the Pittston station of the Delaware and Hudson railway when strikers approached a section gang including striking employees of the Pennsylvania Coal company.

When they attempted to induce the strikers to quit working with the gang both sides began fighting. Stones were hurled and clubs used. State troopers were rushed to the scene.

Do Their Own Threshing

The scarcity of help has made it necessary for farmers to do their own threshing and also to fill their own silos. Practically all the silos are being filled this year by their owners and a large number of farmers have jointly purchased new threshing outfits and are helping out each other. The day of the individually owned outfit that made a practice of going about the county each fall seems doomed as well as the portable silo filling outfit.

Traffic Census

Another traffic census was taken on the Appleton-Little Chute road on Tuesday between the hours of 6 a. m. and 11 p. m. The total number of vehicles that passed over the highway between those hours was 2,166, of which 1,520 were Wisconsin cars, 50 foreign cars, 33 trucks, 15 motorcycles, and 25 horse drawn vehicles. The final census will be taken Wednesday, Sept. 22.

De Pere Farmer Cured of Rupture

Dear Doctor:—

Three years ago I came to you with a rupture on the left side and took your treatment. I worked right along every day during the time that I was under treatment and have been cured and am as strong as ever. I am thoroughly satisfied with the way you treated me and have recommended you to friends who have also taken treatment. I wear no truss and would never know that I had ever had a rupture. You may refer anyone to me wishing to investigate your method of treating rupture without operation.

FRANCE WANTS TO BORROW BIG SUM

French Government Plans to Borrow \$100,000,000 in New Loan.

New York.—On the eve of the reopening of the stock exchange, after the three day rest, incidental to Labor day, the financial envoys of the French government in this country issued a statement Monday night, announcing the conclusion of negotiations with J. P. Morgan & Co. over means for meeting France's \$250,000,000 share of the Anglo-French loan, maturing next month. The statement said:
"M. Casenave, minister plenipotentiary, director general of the French services in the United States, and M. Jean Parmentier, special financial envoy from France to the United States, announced Sunday night that the French government had arranged for the repayment of \$250,000,000, being its one-half of the Anglo-French loan due Oct. 15, 1920. Of this amount, approximately \$150,000,000 is to be taken care of by funds, already in hand, and by gold shipments from France. The remainder will be provided by a public issue of \$100,000,000 of bonds of the French government, to be underwritten by a syndicate now being formed by Messrs. J. P. Morgan & Co."
The first consignment of gold, amounting to about \$6,000,000, was scheduled to leave Havre on Sept. 4. The total inflow is estimated at \$80,000,000, leaving \$100,000,000 to be provided by the refunding loan and \$70,000,000 through remittances of exchange from Paris.

Tire Mileage Increased and Cost Reduced—for Small Cars

You can buy Goodyear Tires today at prices which are no higher than they were ten years ago.

And from these tires you can now obtain more actual mileage due to advancements made by Goodyear in their construction since 1910.

The present cost of Goodyear mileage therefore is decidedly less and this fact applies to all the line, including the 30x3-, 30x3½- and 31x4-inch size Goodyear Tires built especially for small cars.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires—get exceptional mileage at very low cost.

THE BOOK OF ANN
Ann is introduced to his father-in-law, but not as expected.

Jim Junior certainly was the handsomest man I had ever seen. I thought for the second time that evening as he stood, officer's cap in hand, and greeted the beautiful young woman everybody had expected him to marry.

Put to the test, Deborah Burns all ways proved a thoroughbred. She did not show that she had a single emotion, but I think she was very glad that she was wearing the dancer's make-up that night. It helped her, doubtless, when she touched Jim's hand.

Now that the dreaded meeting was over, I heard them chatting, rather formally, as they walked behind Bob and me. The hand, in the distance, waited out one of the most alluring of the waiters. Dancing on the green had begun, the rally was nearing its close. Deb and Jim had met and had survived. Ann had seen nothing. I defied Miss Miller, in spite of the difference in our dresses, and all was well with the Lorimers, in spite of the ominous meaning I had read into that night.

It was nearing midnight, and I remembered with vast relief that Augustus Best's train would soon carry him out of town and that nothing serious had come of his visit. None of us had seen him, except his wife and Bob. My husband had been terribly disappointed in the man.

"He may have been a genius once," Bob had reported to me earlier in the day. "But whatever spark was in him has burned out. He is so far down that it is absolutely impossible to let Ann meet him. Better for her to remember her father as he used to be. Dope—my dear. It's finishing him."

As we approached the house, I remembered Mrs. Best's warning that Ann's father never would set out on his trip around the world without seeing his daughter. And I was so happy to have the affair rounding to a conclusion without a scene in public, and the disgrace Mrs. Best had predicted, that my feet tripped along the walk in time to the waltz measure floating on the air.

And Deborah also came to her senses. A corn roast down river Monday evening in honor of Mrs. William Harker of Schullsberg. Other guests were Miss Esther Christianson, Delmer Peterson, Barrett Gochauer and Gordon Radke.

Mrs. Harker was formerly Miss Gladys Bartlett of this city.

Marries Darby Man
Miss Katherine Schaefer, Kimberly road, daughter of Mr. and Mrs. Henry Schaefer and Edward Probst, son of Jacob Probst, Darby, were united in marriage at nine o'clock Tuesday morning.

The ceremony was performed by the Father Joseph at St. Joseph church. Miss Anna Probst, sister of the groom was bridesmaid and Nick Schaefer, brother of the bride was the

groomsman.

The bride wore a Copenhagen blue velvet suit with a black and silver picture hat and a corsage bouquet of Ophelia roses. Miss Probst wore a dress of navy blue charmeuse and carried a shower bouquet of yellow roses.

A wedding breakfast was served at the home of the bride's parents following the ceremony.

The couple are spending a honeymoon at Milwaukee and Chicago. Mr. and Mrs. Probst will make their home in Neenah where the groom is employed at the Banta Publishing company.

Sister Mary's Kitchen

(Copyright, 1920 N. E. A.)
If one does much deep fat frying it is advisable to keep a small pail of sand in the kitchen near the stove. There is danger of the fat being overheated. When cold or a bit damp articles of food are dropped into it, overheated fat will bubble and may go over the kettle.

Many fires have been started and housekeepers badly burned by just this sort of thing.

Sand is a sure and quick extinguisher. Nothing else will smother the flames and smothering is the only means of putting out a fire of burning grease.

Menu for Tomorrow
BREAKFAST — Melons, cooked cereal with top milk, toast, coffee.

LUNCHEON — Corn cooked oysters, sliced tomatoes, huckleberry pie, tea.

DINNER — Lamb chops baked potatoes, string beans creamed, endive salad with bacon dressing, sliced peaches, Spanish bun, coffee.

My Own Recipes
If string beans are of the stringless variety, and very tender, they are most delectable if a rich cream sauce is poured over them. The beans should be cooked in as little water as possible until perfectly tender, drained and reheated in the sauce.

CORN MOCK OYSTERS
6 ears sweet corn
2 eggs
1/2 cup milk
1 teaspoon salt
1/4 teaspoon pepper
Rolled cracker crumbs
Grate corn. Beat eggs with milk. Add corn. Add salt and pepper and enough cracker crumbs to make stiff enough to drop from a spoon. Fry in hot fat.

SPANISH BUN

1/4 cup flour
2 teaspoons baking powder
1/2 teaspoon each cinnamon, cloves, and nutmeg
2 eggs (leave white of one for frosting)

FROSTING
1 cup granulated sugar
3 tablespoons water
1 teaspoon vanilla
White 1 egg.
Cream butter and sugar. Add one whole egg and the yolk of one egg well beaten. Mix and stir dry ingredients. Add alternately with milk. Bake in one sheet. Cook sugar and water till a soft ball is formed in cold water. Four drops on the white of one egg beaten till stiff and dry. Spread over cake.

There Isn't Anything Nicer
than a home well furnished with good, substantial furniture, well arranged and suited to the place where it is put in that home.

We don't mean by this a house extravagantly furnished, because that does not always mean a comfortable home.

It oftentimes is simply a house with a lot of things which represent a reckless expenditure of money.

Here, we make every house a home of comfort, and we would like to have you step in and talk to us about our plans for such a home.

We believe you will become customers of this store.

CHANGE OF BILL TOMORROW

13 STOLEN AUTOS SAVED BY POLICE

Local Department Makes Splendid Showing in Month Just Ended.

Thirteen automobiles, varying from roadsters to high-priced touring cars, have been restored to their owners by the Appleton police during the heavy autoing season from May 1 to September 1. Three of these were recovered during August, according to the monthly report of Chief George T. Prim.

This crusade against automobile theft has also caused the capture and punishment of four thieves, who had stolen six of the cars. Several others may also be brought to justice before winter sets in, officials believe. The work of the police department has attracted attention in several states, as some of the cars were stolen in Michigan and Illinois.

Quick cooperation with other cities has been one of the reasons for this record. The moment a telephone call reaches the local police station report-

ing an automobile stolen elsewhere, the police touring car and motorcycle starts scouring the surrounding country and watching every highway entering the city, following the same course that is used when an Appleton resident reports an automobile stolen. Tips given the police by citizens who observed suspicious cars or strange actions of the owners have also been a valuable aid.

The number of speeders dwindled to three during August, the chief's report also shows, and one man was arrested for driving an automobile while drunk. There was a total of 32 arrests, or an average of better than one a day. Drunkards and sidewalk bicycle riders topped the list, with eight of each class of offenders. Larceny was third on the list, with six offenses, one of which was a fugitive from justice.

The arrests were classified as follows:

Drunkness 6
Larceny 6
Violation prohibition amendment 5
Riding bicycles on sidewalk 8
Statutory offense 1
Driving through funeral procession 1
Violating parole 1
Exceeding speed limit 3
Non-support 1
Insane 1
Driving auto while drunk 1
The city authorities responded to four calls during August, traveling 14 miles. The patrol answered 113 calls and covered 347 miles.

AUTO THIEF GETS LOCAL MAN IN BAD WITH LAW

"Is there a man in your city by the name of J. E. Williams?" inquired the chief of police of Racine, Chief Prim Tuesday over the telephone. Upon being informed that there was the chief instructed the local officer to have him appear in court at Racine the following morning on the charge of speeding. One of the motor cycle officers caught the number of the license plate on the thief that stole the car at Milwaukee was on his way to Chicago and learned the name of the owner by referring to an automobile directory. The Racine chief wilted when he learned that his department let the man escape. The thief was taken into custody, however, when he reached Kenosha and the car was returned to its owner.

AMERICA GETS HUGE PIPE LINE CONTRACT

New York.—James C. Stewart, head of the firm of contractors, James Stewart & Co., the main the late Lord Fisher sent for at the outbreak of the war in 1914 to put the first submarine nets down in the Humber, returned on Monday on the Cunarder Imperator with an \$11,000,000 contract to construct a ten inch pipe line from Havre to Paris.

The pipe will be used, said Mr. Stewart, "to convey crude fuel oil from the seaport to the French capital, and is to be finished in a year. The government gave the contract first to a French company, which wanted three years to complete the job, and then turned it over to our firm."

"There is a premium of \$250,000 if we finish the work in ten months, and we are going to earn it. The total distance from Havre to Paris is 134 miles, and the work will be commenced almost immediately."

The one government department that can make no report as to how it spends its appropriations, is the secret service.

LUMBER PRICES DUE FOR BOOST

Higher Freight Rates Are Sure to Have Effect, William Fountain Says.

An increase in the price of lumber is predicted as one of the results of the freight rate increase. The shipping situation is such that lumber cannot be supplied in sufficient quantities to meet the building demands and there seems little hope that the market will take a downward trend to offset the higher shipping cost.

Shortage of cement and other building materials outside of lumber has tied up the building industry to some extent this summer, which it is believed will result in an extraordinary demand next spring.

There has been no advance yet but it is bound to come as soon as new shipments reach the retail market, according to William Fountain of the Fountain Lumber company. He said, "It will cost anywhere from \$4.75 to \$5.50 a thousand feet more to ship lumber from the west and south than before. Wisconsin shipments will cost from \$1 to \$2 a thousand feet more. This will have to be added to the retail price soon."

"There is a possibility of the western freight rate being reduced," said Mr. Fountain. "It has been discovered that the readjustment given a rate nine cents per thousand feet cheaper

from the south to Chicago than from the west. Chicago will buy anything that is cheap to meet its enormous demands, whether it is pine, hemlock or something else. They will therefore direct their business to the south. The western railroads that usually enjoy these long hauls have been informed of the possible loss of this business and some action is expected on their part to lower the proposed freight rate."

Mr. Fountain said that there is plenty of lumber in the west and even in northern Wisconsin, but that the big problem is to obtain the cars for hauling. The president of the Santa Fe railway recently made a statement that the country was short 500,000 cars. Eight per cent of the present car supply is in bad order and ought to be in the shops undergoing repair. This is a high average, as the railroads usually consider four per cent abnormal, and try to keep under that figure.

Lumber shipping has been aided by a traffic department opened in connection with the Wisconsin Retail Lumber Dealers association. Mr. Fountain pointed out. The service is free

to every member and has proven its worth. It has paid men who do devote all their time to tracing lumber shipments. They furnish constant reports of the location and movement of cars until they reach the dealer. They also keep track of them, side-tracking the cars at junction points, where most of the delay usually occurs.

Mr. Fountain looks for much more building activity in the spring. He finds that people are becoming accustomed to the higher prices, and are not so hesitant about building.

COMPLETE PLANS FOR MEMBER DRIVE

Miniature Airplane Race to Feature Annual Y. M. C. A. Campaign.

Final arrangements are being completed for the annual membership drive of the Y. M. C. A. the object of which is to increase the present enrollment to 1500, about 1000 of which are to be men and the remainder boys.

A miniature airplane race will be a feature of the drive to illustrate the progress of the teams in filling their quotas. Emil Walters has been selected as chairman of the membership committee of the organization which will be composed of 150 men from whom will be selected captains who in turn will choose six men to complete each team. Each squad will be given the name of an airplane and will be known as such throughout the race, the captains will be known as pilots.

The national Y. M. C. A. is going after an increase of 1,000,000 members and a state drive is expected to follow.

WHEAT FORECAST LESS THAN FOR MONTH AGO.
By United Press Leased Wire
Washington.—The spring wheat crop harvest was forecast at 227,000,000 bushels today by the department of agriculture based on reports of September first.
The forecast Aug. 1 was 262,000,000 bushels.
The department reported the condition of spring wheat on September first as 65.1 per cent of normal and estimated the yield per acre at 12.2 bushels.

program, recently outlined as follows:
1—"The need of farm representation in large governmental affairs is recognized. During the past seven years the right of agriculture to a voice in government administration has been practically ignored, and, at times, the farmer has suffered as a result. The farmer has a vital interest in our trade relations with other countries, in the administration of our political policies and in many of the large activities of the government. His interests must be safeguarded by men who understand his needs, he must be actually and practically represented.
2—"The right of farmers to form co-operative associations for the marketing of their products must be granted. The concert of agriculture is as essential to farms as a similar concert of action is to the factories. Through co-operative associations, the route between the producer and consumer can and must be shortened. The legitimate functions of the middle man may continue to be performed, by private enterprise, under conditions where the middle man is necessary and gives his skill to our joint welfare. The parasite in distribution who profits on both consumer and producer must no longer sap the vitality of this fundamental life.
3—"The republican party pledges itself to a scientific study of agricultural prices and farm production costs, both at home and abroad, with a view to reducing the frequency of abnormal fluctuations here.
4—"We must get a better understanding of the factors which influence agricultural prices with a view to avoiding these violent fluctuations and bringing about average prices, which shall bear a reasonable relation to the cost of production. We pledge ourselves to make a thorough study of the disease, find out what causes it, and then apply the remedy which promises a cure.
5—"We promise to put an end to unnecessary price fixing of farm products and to the ill-considered efforts arbitrarily to reduce farm product prices. In times of national crisis when there is a known scarcity of any necessary product, price control for the purpose of making a fair distribution of the stores on hand may be both necessary and wise.
6—"Government drives against food prices such as we have experienced the past two years are equally vain and useless. The ostensible purpose of such drives is to reduce the price to the consumer. The actual result is unjustly to repress for a time the price the farmer receives for his grains and livestock but with no appreciable reduction in the price the consumer pays. Such drives simply give the spectator and the profiteer additional opportunities to add their exactions which they add to the uncertainty and discouragement under which the farmer is laboring during this period of readjustment.
7—"We favor the administration of the farm loan act so as to help men who farm to secure farms of their own and to give them long time credits needed to practice the best methods of diversified farming.
8—"We also favor the authorization

AUTO RUNS WILD AND KILLS THREE CHILDREN.
By United Press Leased Wire
New York.—Three children were killed and five are expected to die as the result of an automobile running wild and crashing into the sidewalk where they were playing this afternoon.
The chauffeur, who is known to the police, although injured himself in the crash, fought his way free from several frenzied women who had witnessed the killing and maiming of their little ones and escaped.
Two of the children were instantly killed when they were crushed between the radiator of the machine and the front wall of a building at 789 Eleventh avenue, in front of which they were playing, and the third little one died in his father's arms and sobbing out that it was not his fault the children had been hit.

al and religious living conditions fairly comparable to those offered by the city. A sound system of agriculture cannot be maintained on any other basis. Anything short of a fair return upon invested capital and a fair wage for the labor which goes into crops and enough in addition to enable the farmer to maintain the fertility of his soil, and insure against natural hazards, will drive large numbers of farmers to the cities.
Harding expanded his agricultural

of associations to provide the necessary machinery to furnish personal credit to the man, whether land owner or tenant, who is hampered for lack of working capital.
"We do not longer recognize the right to speculative profit in the operation of our transportation system but we are pledged to restore them to the highest state of efficiency as quickly as possible. We must bring about conditions which will give us prompt service at the lowest possible rates.
We are pledged to the revision of the tariff as soon as conditions shall make it necessary for the preservation of the home market for American labor, American agriculture and American industry. If we are to build up a self sustaining agriculture here at home, the farmer must be protected from unfair competition from those

DRIVER OF STOLEN AUTO IS IN COURT

Michigan Men Identify Car as Their Property—Want Case Dismissed.
Wilford Duke Carnecchia of Chicago, charged with having a stolen automobile in his possession, is having his examination in municipal court. The prosecution completed its testimony shortly before noon when Attorney F. J. Rooney, who represented Carnecchia, made a motion that the action be dismissed for want of sufficient evidence, which was denied by the court. The defendant's side was taken up at two o'clock Wednesday afternoon.
The first witness examined was Charles Waney of Allegan, Mich., owner of the car. He stated that he had purchased it early in the year from a friend who wanted a heavier machine and that it was stolen at Kalamazoo, August 15. He identified his machine by the serial number, by the license plate, by a dent in the side, by the absence of a button on the curtain and by a pair of pinchers in the tool box.
He was followed by F. E. Hills, his son-in-law, who had the car at Kalamazoo at the time it was stolen. He said that he left the machine in front of the theatre while his family was inside and that it was missing when he came out. He made a fruitless search for it in the vicinity of the theatre and then informed the chief of police, who notified the officers of all the neighboring cities to be on watch for it. He identified the automobile by its tires and stated that an effort had been made to change the numbers on the machine and in other ways to destroy its identity. He was followed by W. Belbe and John Wollenberg, on whom Carnecchia called in an attempt to change the numbers of the machine or to dispose of it.

Racine.—Henry Allen Cooper, who for 26 years represented the first congressional district of Wisconsin and was defeated for re-election two years ago because of alleged disloyalty in acts of congress in the World war, was apparently vindicated as a result of the primary election held Tuesday, according to returns from all but 15 precincts of the five counties of the district. Cooper leads Randall, present incumbent by nearly 2,900 in a four-cornered fight.
Managers of Randall's campaign admit the nomination of Cooper and his certain election in a rock-ribbed republican district.
INHERITANCE TAX.
Joseph Lefevre, attorney, paid an inheritance tax of \$20.22 to Louis A. Peterson, county treasurer. In the estate of Leo Lawe of Kaukauna which was valued at \$4,922.35. The entire estate went to the decedent's father, John Lawe.
A daughter was born to Mr. and Mrs. Fred Schwartz, Green Bay, Wis., day. Mrs. Schwartz was formerly Miss Stella Smith of this city.

EVERY FLOWER HAS STORY OF ITS OWN

THE POPPY.
Consolation and oblivion is the significance of the poppy in the language of flowers. Even the ancients recognized the narcotic qualities of the plant, for Hypnos, the god of sleep, and Thanatos, the god of death, are always represented in old art as holding a poppy.
The Greeks and Romans used the petals of the poppy to test their love. One petal was placed in the palm of one hand and if upon being struck by the other, it snapped with a sharp sound, the loved one was faithful.
Old Indiana Legend.
An old Indian legend tells of a dervish living on the banks of the Ganges River, who had a pet mouse. He was very fond of it and gave it the gift of speech.
A cat living in the neighborhood, however, molested the mouse, so the dervish changed it into a dog. The animal was still dissatisfied. So it was transformed into an ape, then a bear, an elephant and finally into a beautiful girl whom he called Postomani, meaning poppy-seed.
King Married Her.
One day as she was in the garden, the king passed and having fallen in love with her, insisted upon being married at once by the dervish, and they lived happily. One day, however, Postomani was standing by a well, and becoming dizzy, fell in. To console the king, the dervish told him the story of Postomani, and gave directions that the well be filled with earth. He told the king that out of her grave a plant would grow from which would be a person using it, be mischievous like a mouse, savage like a dog, filthy as an ape, wild like a bear and slow as an elephant. That is the effect the drug has to the present time.

MAYS SHUTS OUT MACKMEN, 2 TO 0

New York Star Pitches Invincible Ball Against Philadelphia Club.

New York—Carl Mays pitched shutout ball on Tuesday, New York defeating Philadelphia, 2 to 0. The Athletics got two clear hits, the others being of the scratch variety. The Yankees had many opportunities to score, but poor work on the bases spoiled their chances. Romet, who pitched the eighth inning for Philadelphia, struck out Ruth, Pratt and Messel.

Tigers Whip Sox
 Chicago—Detroit won its third victory of the season over Chicago on Tuesday by shutting out the locals, 5 to 0. The visitors won the game by hitting Kerr opportunely. Chicago was unable to do anything to Leonard.

Divide Double Bill
 Washington, D. C.—Washington made it four out of five from Boston by splitting even in a double header on Tuesday, winning the opener, 5 to 1, and dropping the second, 3 to 5. Shaw outpitched a pair of Boston hurlers in the first game. The locals were unable to launch their hits as effectively as the visitors in the second.

What Is the Condition of Your Blood Supply?

Highly Important to Keep It Free From Impurities.

Did you know that ninety per cent of all human ailments depend upon the condition of your blood? You should recognize the importance, therefore, of very promptly cleansing out the system, and keeping the blood supply pure and robust.

For this purpose, no remedy can equal S.S.S., the fine old blood purifier that has been in constant use for more than fifty years.

Get a bottle of S.S.S. at your drugstore today, and note how promptly it gives new strength and vitality. Write for free literature and medical advice to Chief Medical Adviser, Swift Laboratory, Atlanta, Ga.

DODGERS TAKE TWO FROM THE PHILS

Robins Spurt Toward Pennant at Expense of Spilling Phillies.

Philadelphia. — Brooklyn defeated Philadelphia on Tuesday in both games of a double header, 4 to 0 and 3 to 3. Dodgers held the locals to five scattered singles in the first game. After Marmann injured his leg in a collision with Rhee at first base in the sixth inning of the second contest Paul Hulse single and Williams' triple off Sherwood Smith drove home three runs, tying the score. Stengel's misjudgment of New liner started the winning rally in the eighth.

Pittsburg.—Chicago wound up its season here with a 7 to 4 defeat. Pittsburg landing on Vaughn's delivery at will. His two wild pitches and a hit batsman accounted for four runs. Carlson was relieved in the fifth inning by Adams.

HAY FEVER TOURISTS ARE HEADED FOR NORTH

Most of the tourists now headed for the northern part of the state are victims of hay fever according to a local hotel man who has conversed with many of them. The majority are from Illinois and they expect to remain in the northern lake region until cold weather sets in. Nearly every car is equipped with a camping outfit.

HEAR ONLY GOSSIP IN PENNANT FUSS

Fandom's Enthusiasm Wanes as Indians and Yankees Take Day Off.

Chicago.—Fandom's interest today simmered down to gossip of the coming deciding series between the Indians and the Yankees while the two pennant holders took a day of rest in preparation for the all-important contest.

Separated by a pen and a half the day opening tomorrow in Cleveland was anticipated as the finish of flag hopes for one of the favorites. Unwilling to criticize Col. Houston's martyrdom to the peace of baseball in withholding Carl Mays from the skirmish because of his pitched ball which resulted in the death of Ray Chapman fans felt the New Yorkers' chance of topping over Cleveland in the standard column were lessened. Lunt's temporary disability, however, was looked to as a counter loss of strength.

With Philadelphia at Detroit and St. Louis at Chicago in the American League and New York at Boston and Brooklyn at Philadelphia in the National League there was little in the day's offerings to agitate enthusiasm. Brooklyn furnished some food for chatter today by the double win yesterday over Philadelphia because it increased the Dodgers' nearness to the Cincinnati Reds' standing while the latter vacillated.

CROSS COUNTRY AIR MAIL SERVICE OPENS

By United Press Local Wire
 Minneapolis, N. Y.—The longest air mail route in the world was put in operation today when the New York-San Francisco service was inaugurated. Piloted by Ralph C. Page, of Washington, D. C., a De Havilland mail plane took the air at Curtiss field here at 6:41 a. m. today for the first jump of the trip, carrying four hundred pounds of mail.

FRAME FORGES AHEAD IN TENNIS TOURNAMENT

Keen interest is displayed in the city tennis tournament at the Y. M. C. A. Frame defeated Starkey, winner of the Weston vs. Starkey match 6-2, 6-2, 6-1 Tuesday afternoon. Pelkey won over Root 6-2, 6-1, 6-2. The Meyers vs. Rogers match is scheduled for Wednesday afternoon. The winner of this event will compete with Pelkey. Frame is to meet the victor of the Hockey vs. Weller match which is to be played on Thursday, and the winners of last two games will compete for the tournament championship.

POLAND'S CLAIMS TO BE HEARD BY LEAGUE

London.—Poland's application for arbitration of her territorial dispute with Lithuania will be taken up by the league of nations at the meeting of the council in Paris September 16, it was learned today. Officials of the league were believed unsympathetic with Poland, pointing out that that country had not conformed with its league obligations and had taken the initiative in the Russo-Polish hostilities. The political department of the league has started an investigation. Peru and Bolivia have asked the league to settle the Tacna-Arica dispute.

TRY CAPTAIN WHO KIDNAPED EDITOR

Galveston Official Regarded Sanders as Dangerous Agitator.

By United Press Local Wire
 Galveston, Texas.—Trial of Captain William Mayfield, provost marshal of Galveston, on charges of misconduct, was resumed before a military court today. The trial is staged in the hall room of a fashionable hotel. Brig. Gen. Wolters was the first witness yesterday. He declared he had ordered Mayfield to arrest G. V. Sanders, editor of the Houston Press, if the latter came to Galveston.

Try This If You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

who "kidnaped" Sanders, acted as if they knew they were acting without authority. On August 30, three army lieutenants attempted to arrest Sanders. Following their arrest, Mayfield issued a statement assuming responsibility. It was expected the court martial will last until tomorrow.

Men Choose This Hudson For Daily Rapid Transit

Unfailing Reliability With Comfort and Economy
 Accounts For Its Popularity Among Motor Commuters

THE partiality to Hudson of men who regard their cars primarily for their utility, is readily understood in the light of abilities for which the Super-Six stands supreme among all the world's cars.

Those who must depend on motor transit are uncompromising realists where cars are concerned.

They are seldom novice owners. And their experience has taught them knowledge of the substantial values that endure unchanged by time. It is such men, in the main, who for five years have made Hudson the largest selling fine car in the world.

With them reliability is the first consideration. That answered, the governing factors are safe and rapid transit, with economy, comfort and freedom from any mechanical concern.

The Hudson coupe is a favorite model with all owner-drivers, and especially with the growing thousands who commute by motor, from country and suburban homes to their business in the city.

Until the present, we have been months in arrears of demand on this favorite model. Now, however, we can assure reasonably early delivery on a limited number of orders, if placed promptly.

TO OUR PATRONS

Telephone expansion must continue to be ahead of local and national progress. As progress in our commercial, industrial and social life goes on, telephone service must be far enough advanced to receive and care for the increased demands.

During the war this was impossible. Manufacture of equipment was reduced and the reserve facilities and equipment was diverted almost entirely to war purposes.

Now that the war is ended, the Wisconsin Telephone Company plans to spend \$6,000,000 in new construction in the next two years and to restore its pre-war reserve of facilities and equipment.

Rates must be charged that will meet present costs, both in equipment and wages. The public must pay, but for its own benefit. Telephone service belongs to the public and it must be maintained, always, at the maximum of efficiency regardless of prevailing costs.

MILWAUKEE MAN HERE WITH CHILEAN BRIDE

Mr. and Mrs. Fred Marquardt of Milwaukee, were guests of Mr. and Mrs. D. Bretschneider Tuesday. They are on their honeymoon trip by automobile to the Marquardt summer home near Rhineland.

Mr. Marquardt is a member of the Milwaukee Woven Wire Works firm and met his wife while on a business trip to Chile two years ago. She arrived in the United States about a month ago and the wedding took place Saturday.

Is Recovering

Mrs. Wilma E. Boon, 450 Washington street, who was recently called to York, Pa., by the illness of her daughter-in-law, Mrs. Leonard F. Boon, has sent word that the latter is rapidly convalescing from typhoid fever.

Mrs. Wilma Boon expects to spend the winter at various points in the east. Her son is a construction engineer with the American Chain company, New York, and was formerly a student at the Ryan high school.

Boys Choose Factory

Albert Jense, formerly employed at A. C. Wirth's cheese factory in Grand Chute, has taken over the factory on the Dale road formerly operated by Leonard Nutter. Mr. Nutter has purchased the factory at Dale.

To Address Meeting

Professor Emme, head of the religious education department of Lawrence college will address the mid-week service at the First Methodist Episcopal church at 7:30 o'clock Thursday evening.

John Schatzman has returned to his home at Marshalltown, Iowa, after visiting his sister, Mrs. Ben Gerou. He is a former Appleton resident.

Clement Gerou has returned to the city after visiting relatives at Marshalltown, Iowa. He will enter high school this year.

The World Moves On

Printers thought the typesetting machine was not practical—
The horse breeder said the automobile would never be in general use—
The wire manufacturer said "wireless" was a dream—
Even congressmen said "heavier-than-air" flying machines were impossible—
The last to be disturbed by the wheels of progress is the single-record phonograph manufacturer, who says the playing of all records on one machine "cannot be done."

"Cannot Be Done"

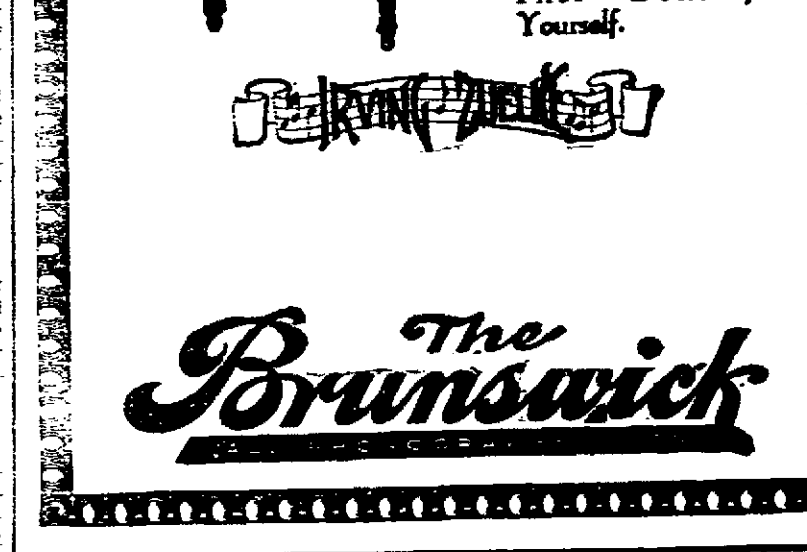

is now in the scrap heap, for—

The Brunswick does it!

It attracts the eye. It pleases the ear. It plays all records at their best.

It is All Phonographs in One

"CORN"

Lift Right Off Without Pain

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

STOP THAT WASTE!

THE minute you connect a new Columbia Hot Shot Dry Battery to your gas engine, you'll discover that she is giving you more power. Later you'll learn that you're saving gas.

A Single Dry Battery of Many Cellpower

The sturdiest package of power ever built. No loose connections, no short circuits.

For easy starting ignition on your Ford, put Columbia Hot Shot No. 1461 under the seat. Saves prolonged cranking—usually ignites the first compression of gas.
